

Bull Creek Road Coalition - May 7th, 2015

Attendees: Gina Allen, Kata Carbone, Charlotte Cooper, Gary Cooper, Lanny Derryberry, Linda Derryberry, John Eastman, Donna Edgar, Roseanne Giordani, August Harris, Carl Hehmsoth, Joe Reynolds, Bob Rutishauser, Amer Shaukat, Sara Speights, Ed Wallace, Tom Whatley

Meeting called to order at 6:30 PM

Sara suggested that BCRC needs more time to meet without Milestone in attendance. She is also concerned about density towards 45<sup>th</sup> and Bull Creek will cause traffic difficulty for Shoalmont Oaks and Rosedale.

Concern also about height restrictions near residential.

Bob would like to have independent traffic study done. There is concern about what happens to traffic at intersections other than the ones that Milestone has studied.

We need to determine Committees to approach City....not around departments but maybe around issues in response to the land plan.

City has promised an evening meeting w/department heads.

5 page response to Milestone's April 2<sup>nd</sup> Plan has been forwarded to Case Manager of DA.

BCRC committees may need to set up meetings with the City monthly and then report back to BCRC.

Suggested committees – Drainage/Flooding, Affordability, Land Use/Zoning Compatibility, Traffic/Connectivity, Trail/Creek Enhancement, Park and Open Space.

Proposed that committees should have one member of executive committee of BCRC Board.

Milestone slideshow presentation – available online.
